Imperial Sovereign Canvas

Designed to hang in a place of prominence in your home, the Imperial Sovereign Portrait is alive with all the sensitivity and brilliance which you have come to expect from a Chaney Photography portrait. The finest printing techniques are used to produce the print. The emulsion is carefully adhered to artists canvas and put on a stretcher frame. You can display this beautiful portrait with great pride, and you will treasure it for many, many years.

The Embassy

Our Embassy Portrait is a handsome finish, not as dimensional as the Imperial Sovereign, but altogether very pleasing. Here, the portrait is custom printed. It is then mounted on heavy artboard. The Embassy Portrait exhibits many of the desirable features found in the more expensive finish, but at a lower price.

The Marquis

When the primary consideration is price, Marquis is a very satisfactory finish. This portrait lacks the dimension found in the more expensive processes, but still exhibits all of the special photographic artistry you have come to expect from a Chaney Portrait.
